Manila, Philippines

EDUCATION

De La Salle University — Manila, Philippines

Oct 2021 – Feb 2026

BS Computer Science, Major in Software Technology

Consistent First Honors Dean's Lister

Relevant Coursework: Cloud Computing, Data Structures, Algorithms Analysis, Intelligent Systems, Information Management, Web and Mobile Development, Software Engineering, Human-Computer Interaction

EXPERIENCE

Moongig (Better Future Ventures, Inc.) — Philippines

Jun 2025 – Apr 2026

Product Manager — Junior Product Manager, full-time (Sep 2025–Apr 2026); Contract Product Lead (Jun–Aug 2025)

- Owned end-to-end product management for a two-sided healthcare staffing marketplace, scaling the platform from 6,000 to 24,000 healthcare professionals and to 72 partner providers.
- Led a cross-functional team of ~10 (engineers, infrastructure, UI/UX, QA, AI) through a full product development process — PRDs, sprint planning, and retrospectives — built from the ground up in the absence of a prior product function.
- Redesigned the platform's job/shift discoverability algorithm, increasing post impressions by ~40% through weighted ranking based on engagement signals and HCP search intent.
- Shipped an automated payout system that cut manual payout review workload by ~70%, and led migration of a key client's (MedGrocer) FTE timekeeping onto a unified dashboard.
- Introduced "Jobs," a new full-time/part-time/fixed-term hiring pathway (previously shift-only), taken from prototype to launch in 2 months and adopted by 69 of 72 partner providers.
- Scoped AI-powered features (natural-language talent search, automated CV extraction) and directed requirements for a native mobile app rebuild, reaching app-store submission readiness.
- Selected as 1 of 5 (from 100 applicants) for the Kaya Founders fellowship; converted to full-time hire based on performance.

Dala — Philippines

May 2025 – June 2025

CEO & Co-founder

- Led the end-to-end definition, design, and validation of an AI-powered mental health platform, resulting in a functional MVP used by 30+ early users within 3 days of launch.
- Secured a strategic partnership with NowServing to streamline patient-doctor data integration.

BoxCrib — Philippines

Feb 2025 – May 2025

Co-founder

- Led platform development from concept to launch for a construction supply marketplace, reducing procurement process time by 80%.
- Acquired 120+ suppliers and generated ₱15,000 in sales within the first month, driving early marketplace liquidity and engagement.

Giants Collective — Sydney, Australia

Sep 2024

Philippine Delegate / Founding Fellow

- Selected as 1 of 3 students to represent the Philippines at the Emerging Giants Summit 2024, in partnership with Stanford University ASES; received mentorship from professionals at Google, YouTube, Canva, Netflix, Uber, Blackbird, and Y Combinator.

Elinnov Technologies, Inc. — Philippines and Singapore

May 2024 – Aug 2024

Software Engineer Intern

- Optimized large language models (LLMs) using domain-specific data, improving the accuracy of AI-generated sustainability reports for corporate clients by 35%.

ACHIEVEMENTS & COMPETENCIES

Achievements: Emerging Giants Summit 2024 (Delegate), Blue Hacks 2023 Hackathon – Computer Society of the Ateneo (2nd Runner-Up)

Other Projects: BantayBuddy, Daily, PasaHero, Insurance Claim Prediction (Machine Learning), MazeBot with A* Heuristic Algorithm, Farming Game with OOP, Medical Diagnostic Chatbot

Languages: SQL, C, C++, Java, Python, Ruby, Kotlin, Golang, HTML/CSS, JavaScript, TypeScript

Technologies/Frameworks: Flutter, ReactJS, Next.js, TailwindCSS, Firebase, MongoDB, MySQL, Docker, AWS, Supabase

Project Management: Agile, Scrum, JIRA, Notion, GitHub, Figma, Google Analytics, Trello

Certifications: Python for Data Science, AI, & Development (IBM), Agile Project Management (Google), Learning Data Analytics (LinkedIn), Introduction to Generative AI Learning Path (Google Cloud Learning)
